All cartridges from KOPYFORM are filled with edible ink. Since Inkjet printers are not specifically designed to work with edible inks we cannot guarantee the trouble-free performance of the printer. Our warranty does not cover any damage caused to the printer due to the use of the inks. KOPYFORM is not able to test all available printers. Instead we must rely on information given by the manufacturers. No responsibility is taken for the correctness of this information. More printer information is available at the website <https://global.canon/>.

Information about Epson-, Brother-, Lexmark-Printer Models:

We do not offer edible ink and cartridges for any of these printer models.

We offer egg marking ink which can be filled in HP26 and HP45 cartridges.
